

Single Feasible Source Purchase

Title: Coalition Member Training and Technical Assistance

Description: Missouri Coalition Against Domestic & Sexual Violence (MCADSV) is the sole federally designated sexual and domestic violence coalition for the State of Missouri. Missouri's sexual violence prevention provider organizations are members of the MCADSV.

The Centers for Disease Control (CDC) has recommended the provision of sexual violence prevention trainings to all sexual violence prevention provider organizations within the State of Missouri. The CDC recommended that either DHSS or the MCADSV conduct the training. The CDC strongly encourages a partnership between the grantee (Department of Health and Senior Services) and the state coalition (MCADSV).

The CDC's Rape Prevention and Education (RPE) guidance manual mandates that structures, processes, training, and technical assistance be promoted through a statewide operating environment that supports the development and maintenance of the RPE programs.

The MCADSV is the only organization in Missouri that reaches every region of the state, holds statewide trainings, and provides technical assistance to rape prevention programs. MCADSV is qualified to provide training on the resources required by the CDC and conducts regional meetings on a quarterly basis with all of their members.
